The seat matrix (Government quota seats) in respect of Medical and Dental courses, as notified by the Government will be published on the KEA Website <http://kea.kar.nic.in> before the commencement of allotment of seats to the

respective disciplines. For the benefit of candidates, complete list of colleges and subjects has been provided in **Annexure-VIII** and further details can be obtained from Medical/Dental Council of India website. This is only for the information of the candidates and further details will be provided in the seat matrix.

VI Entry of Options by Candidates:

(i) Entry of options by the candidates will begin only after the receipt of seat matrix from the Government. The details of College, Course, Subject, Category and discipline available for allotment will be published on the KEA website <http://kea.kar.nic.in> which can be downloaded and printed.

(ii) The candidate who becomes eligible after verification will only be considered for entry of options. The candidate may enter the course / college of his choice from among the seats available which is displayed at the time of entry of options i.e., discipline wise (Medical/Dental), course wise (Masters/Diploma), college wise and subject wise . **The candidate will have the choice to enter all the options in the discipline to which he/she is eligible irrespective of the availability of seats. The option entry will be only once for all online seat allotment rounds. Candidates are required to note that there could be seat surrenders from All India Quota after the All India Quota last round as well as new approvals for additional intake and new courses approval in colleges.** Therefore all the candidates are required to enter all possible options as the OPTION ENTRY IS ONLY A ONE TIME PROCESS. Further the last date for approval of additional seats and courses by MCI is 15th April. A list of such anticipated approvals shall also be put up on the KEA website. This is only by way of additional information to the Candidates. No claim can be exercised by any Candidate in the eventuality of non-approval. Candidates are required to keep all this in mind while listing out their options in order of priority during Option Entry.

Candidate can enter the options for one of the discipline for which he/she is eligible. Upon entry of preliminary information by the candidate on the internet at the specified URL, the option entry form will be displayed. (Candidate has to enter his User ID/PGET No., valid Secret key and password coined by the candidate.) The entry form contains priority order number, discipline, college name, college code ,course code and the subject code. The candidate has to give the priority order number from among the list of colleges and courses. Candidate can prioritize his/her options from series of permutation/combination of college and course.

There is no limit for entry of options. A Candidate can enter any number of options as he / she wishes to exercise on his / her own priority. Candidates are advised to enter more number of options to avoid any disappointment of not securing a seat. Candidate has to enter the option in the order of priority as he / she desires. Candidates are advised to do thorough home assignment regarding the choices which they want to exercise, the college which they prefer, the course which they are interested to join etc. It is better to write the order of options on a sheet of white paper and discuss the same with your parents / guardians / mentors etc before actually entering same in the system. Your interest in the college infrastructure, course, distance from your place, availability of hostel, fees, stipend etc may be some of the issues to guide your choices of options and advice of your parents. As it will save your time and minimize your chance of making mistake in option entry on the online option entry form. **A candidate can enter any number of options through Online (Internet) of his choice of College / Colleges and courses/subjects in the order of the priority he / she desires on his / her own arrangement. Schedule for Entry of options will be notified by KEA on the website <http://kea.kar.nic.in> & other media, SMS on the registered mobile number at the time of application if required** The allotment will not proceed to the next rank candidate till the list of your options is completely searched for availability of a seat. The candidate may change the options as many times as he / she desires before the last date and time notified for entry of options. After entry of options candidate has to select the button submit and logout.

It is the endeavor of the State Government to get as many seats as possible for Government quota in private institutions. Candidates are encouraged to enter as many options as possible in order of as only one time option entry is allowed.

Options recorded in the server on the last day and time of the notified schedule in each round will be frozen and only the frozen options will be considered for allotment of seats. The candidates are advised to take a print out of the option entered by them, after the last date and time for entry of options is over.

Very Important: The candidates are advised to enter all the options which they are intending to select the seats. The candidates have to enter the priority numbers for all the colleges and courses as the seat matrix may include in the subsequent rounds i.e. by way of surrendering seats pertaining to all India quota, newly sanctioned seats, newly added colleges/courses etc. For e.g.: In X college the course "Y" is not included in the seat matrix but the provision to obtain priority of options will be enabled so that in future the competent authority accords permission then the course "Y" will be allotted only when the options of candidate are available. Therefore the Government is informing the candidates to enter all such options if they are interested to join.

(iii) Please enter URL or Website address <http://kea.kar.nic.in> or as indicated in the notification. Upon entry of URL you will find link like "PGET-2015-OPTION ENTRY" and select the links regarding the information on many items.

Preparatory work at home:

Allotment of seats depends entirely on the **priority of options** given by the candidates as per the merit / rank. Hence it is of utmost importance to familiarize oneself with the operation of the computer, the locking of seats so that the correct choice and options are entered. Practice of entering of options has to be undertaken as even an expert in computers would require a minimum of one hour for entry of about 500 options. Familiarity with the computer, prior knowledge of the college, course is essential to fill up options. Even a small mistake in entering the options may deprive a valuable seat in the desired college / course even though he / she is eligible for that seat as per his / her rank. Therefore, KEA suggests that the student should

familiarize themselves in entering the options in the online option entry form. A home work of about an hour everyday is necessary for the students to familiarize themselves with the allotment. The following steps may be taken by the candidates before entering their options in the online option entry form.

- The candidate should note the name of the college, the course offered in a separate sheet of paper.
- Preparatory work should be commenced only after asserting their merit / rank order.
- The priority of options among the colleges/subjects selected should be noted down.
- A mock allotment on real time data given by the candidates will also be done before the actual commencement of the First Round allotment, so that the candidate can know the college and course allotted as per his options. The candidate can also change his options after seeing the mock allotment. This will help him to find out his standing as per his merit and as per options. **The mock test is only to help the candidates familiarize and show them the course and college allotted to them and it should be in no way presumed that the same seat and college will be allotted to them in the actual allotment of seats.** Because, the candidates have the option of changing the priority of the options entered by them after the mock allotment.
- The verification Acknowledgement issued to the candidates indicates the category which he / she belongs, rank number for each discipline to which he / she eligible, special category if any etc. It will help in choosing the college or course or place of the college.

The entire process of allotment is controlled by sophisticated software and high end computers which examine minutely the options given by the candidates for allotment of the best possible seat to the candidate as per the rank and options given. Therefore, it is very important that the candidate should be very clear about the choice of the course, college and subject which he is interested in. For example if a candidate is interested only in Master degree Pediatric seats then he can give all the options in all the colleges for allotment of Pediatric seats only. There may be about 38 Medical colleges and the candidates can give 38 options for that course if the course is available in all colleges. The computer will decide the best seat available for allotment as per the rank and order of options of the candidate. Similarly a candidate may be

interested only in orthopedics and he may opt for aorthopedics course in a particular college as per his choice. The computer will pick up the best options available as per merit and order of options. In other words the candidate is free to give as many options in as many courses in as many colleges as he deems fit. The more number of options the better it is for the candidate to secure a seat of his choice.

NOTE: Candidates are advised not to start entering the options directly on the online option form on the internet without preparatory work at home on choice of options, as it leads to commission of mistakes / wrong entries / wrong order of preferences.

NOTE: Please ensure that whether you are entering the options for Masters Course or Diploma course in the subject of your choice before entering options. Don't repent later.

The candidates are advised to gather information about the colleges, the courses offered, infrastructure available, teaching faculty, laboratory facilities, hostel facilities and any other information which would help him / her in narrowing his options. The distance from his / her house, the mode of transport, the hostel facilities and the environment etc are also prime factors in deciding priority of options.

The whole process of seat allotment hinges on the priority of options entered by the candidate. If option entry is faulty then the candidate stands a chance of losing best available seat as per his rank and category. The candidate is advised to take utmost care while entering priorities for college, course and subject.
